

Seminar on Handling ASD students in Inclusive Set-up

A seminar was organized for the students of Tagore International School and parents of Special Children on 6th Oct 2017 at Tagore International School Mayapuri. The opening remarks for the workshop was given by Ms Sanjana Mittal; Deputy Director of AIRSR. She briefed about the Inclusive India Initiative by The National Trust . It was followed by presentation of small documentary on the working of Ashtavakra Institute for the development of Special need students. The students were then sensitized about six disabilities i.e ASD, CP, DB, HI, MR & VI by their respective HOD's . The most interesting session for the event was the interaction of parents of Special need students and resolving their day to day problems which they come across with their children. The seminar was altogether very informative and thought provoking.
