

Candle March

As a part of the World Disability Day celebration the students & entire staff members of Ashtavakra Institute of Rehabilitation Sciences organized a candle march on 3rd December 2015 to promote awareness relating to the inclusion of persons with disabilities in society.

The march began with a lightening of the candle by Dr Anmol Arora, Medical Director of Ashtavakra Institute and other staff members.

The students created awareness among general public by promoting rights for people with different abilities. The students displaying self designed posters and raising slogans took an initiative by writing post cards highlighting the theme of the International Day i.e. Inclusion Matters: Access and empowerment of People of all abilities.

The students distributed these post cards among general public to identify the disabled in their vicinity and help them in providing rehabilitation services at Ashtavakra institute. The students had a wonderful time interacting and bonding with common people. The accompanying school teacher & faculty members served as an enriching & educative experience for all.

The program culminated with motivational speech of Mrs Sanjana Mittal in which she thanked Mrs Meenu Jain, the school principal for her endless efforts in disability sector. She also congratulated the entire staff members for their hard work & dedication in their work.
