

## WORLD BRAILLE DAY/LOUIS BRAILLE DAY

(1809-1852)

**LOUIS BRAILLE DAY-** was celebrated by students of A.I.R.S.R.ROHINI on **04<sup>th</sup> Jan 2017** at conference room of our ASHTAVKRA INSTITUTE .LOUIS BRAILLE was an eminent personality who was invented the six dots concept for **VISUALLY IMPAIRED** person so that they can read as well as write easily in Braille.

LOUIS BRAILLE was born on 04<sup>th</sup> JAN 1809 in Coupvray, France.His system is globally accepted code for those with visual impairment. hats why we celebrates WORLD BRAILLE DAY on 04<sup>th</sup> Jan every year. The Braille system was in limited use during his lifetime. It has since been accepted globally. He was died in 1852.

The whole function was organized by V.I. and D.B. department. On this day we had organized some events for students like :-

- ✓ A. Braille writing competition.

- ✓ B. Braille reading competition.

- ✓ C. Speech on LOUIS BRAILLE DAY.

- ✓ D. Debate on Inclusive and special Education.

Participation of students in (above mentioned) events was Braille writing competition > Braille reading competition > Speech on LOUIS BRAILLE DAY > Debate on inclusive and special education. As shown above maximum students were participated in Braille writing competition then in Braille reading competition then in Speech and after that in Debate. At the end of the function we distributed Appraisal Certificates to selected candidates.

LOUIS BRAILLE was contributed a lot in the area of visual impairment. It is no wonder he was considered by many to have been a great personality.
