

Students of Ashtavakra Donated Blood

It's not how much you accomplish in life

That really counts,

But much you give to others.

Students of Ashtavakra donated blood at Navjeevan Medical Relief & Research Foundation , Pitampura Blood Bank on 8th September 2015 .

Some of the patients suffering from dengue fever were struggling for their life and students from D.Ed Sp Ed(CP, I & II Year) contributed their bit for the noble cause.

Their efforts were appreciated by Dr Anmol Arora, Medical Director of AIRSR.
