

## Wings to Imagination: Workshop on 3D printing

A workshop was organized on 18<sup>th</sup> April 2015 in the conference hall by Moby Oxygen solutions with a mission to educate and train students and faculty members of Ashtavakra Institute of Rehabilitation Sciences and Research about the widest possibilities of 3D printing.

Co-founder of Mobi Nxtgen Solution, Mr Anoop Kumar highlighted the need of 3D printing in present scenario. He briefed about the launch of artificial 3D support for hand, leg etc which are cost effective and highly recommended for the handicapped people.

Mr. Anoop Bhalla, IT professional from MNS discussed the training program organized by their company for the students of schools and colleges to acquaint them about the scope of 3D printing as a means to provide vocational training. The open discussion broaden their vision and paved a path for to give wings to their imagination.

An exhibit of 3D objects including human replica, pots, statue etc glued one and all present there. The workshop was altogether informative and fruitful.
