About The Talk

A one day seminar was held on 13th July, 2019 (Saturday) for BASLP Department. The speaker for the talk was Mr Vijay Kumar, HOD ASLP Department, Amity University, New Delhi. He is PhD in Neuroscience (Persuing), Amity University Uttar Pradesh, on topic India Cognitive and linguistics learning abilities.

Learning Objectives:

He brought us insights on new trends in researches and on research types. His presentation and discussion started with information on introduction of how to conduct research and how they have been carried forward in history. Most of the information was focused on scope of research in speech & hearing field. Issues with research methods was been discussed as a result of student involvement through queries and doubts in between the seminar.

There it was great input of knowledge on designing research questions and deciding aims & objectives for conducting a research.

Learning Outcome:

We grasped a lot of knowledge on across the world researches in the field of speech & hearing. Though time was limited but we got a lot of information on researches & methods. The students got to know the scope of research in this field, what challenges they have to face and what opportunities are waiting for them in the field.
