Objectives:

- 1- To enhance the knowledge about teaching technique, procedures and behavioral objective for CWSN.
- 2- To help students gain first-hand information about CWSN within barrier free environment.
- 3- To enhance the knowledge of Classroom Management of CWSN with focus on ASD
- 4- To correlate theoretical knowledge with real time practice with the special students.

Day Visit on 14th Feb 2020

All the students and accompanying faculty members assembled at the premises of Ashtavakra Institute of Rehabilitation Sciences and Research and boarded the bus at 9 PM on 14th February 2020 and started journey to Mata Bhagwanti Chadha Niketan, Noida, UP Bottom.

The students reach the center at 10:30AM .All the students assembled at conference Hall where the head of the Institute welcomed the students & the staff of AIRSR .She also explained the working of the Institute and different services available at the center.The Head of the Insittute also briefed about the setting of MCBN .She explained that it was is a charitable school for differently-abled children, children with special needs, special abilities, and special smiles.

It is a school that provides all required rehabilitation services to children with intellectual impairment, cerebral palsy, autism spectrum disorder, hearing impairment and multiple disabilities. Presently the institution provides rehabilitation services to 550 approximately beneficiaries absolutely free of cost. We make sure that learning is enjoyable for special ones and enable them to achieve maximum independence with their limited abilities. We take pride in our professionally trained dedicated faculty who is committed to create an environment, which maximizes the quality of learning. Late Sh. Gurdeep Singh Chadha (lovingly known as Ponty Chadha) had interest to bring the physically, mentally or intellectually challenged people at par with the rest of the world. As an honoring gesture in the loving memory of late Smt. Bhagwanti Devi Chadha, his deceased grandmother, he founded this school in 1999. He aimed at touching these children's lives in a way that made their lives considerably better and worth living.

She also explained very beautifully the services available at the Institute like

1. Special School:
2. Computer Training:
3. Vocational Training
4. Early Intervention Clinic
5. Integrated Education:

The students of Ashtavakra visited all the areas of the Institute and gained the practical exposure of dealing children with special needs.
