## AZADI KA AMRUT MAHOTSAV

### Webinar on World Ozone Day (16<sup>th</sup> September 2021)

**Event:** World Ozone Day

**Date:** 16<sup>th</sup> September 2021

**Time:** 11:00 A.M.-12:00P.M.

**Venue:** Microsoft Team Apps

Chief Convenor : Ms Sanjana Mittal ( Head Student's Welfare)

**Convenor/In-charge:** Ms. Mansa Verma (Faculty VI Department) and Ms. Gangotri (Faculty CP, Department)

**No. of Students:** 40

**Purpose of the Event:** Through this webinar spread awareness among people about the depletion of the Ozone Layer and search for possible solutions to preserve it.

#### Objective of the Event:

- To increasing energy efficiency and creating more ozone- and climate-friendly technologies.
- The principal aim of the Montreal Protocol is to protect the ozone layer by taking measures to control total global production and consumption of substances.

## Report of the Event

A very small and interactive webinar on the occasion of World Ozone Day was organised by Ashtavakra Institute of Rehabilitation, Sciences and Research with great like every year. All the Students and staff members of VI department participated in this activity with full enthusiasm and showed utmost dedication. This year's theme for the International Day for the Prevention of the Ozone Layer is 'Montreal Protocol Keeping us, our food, and vaccines cool. On this Special day various activities including Slogan writing competition, Poetry and Poster making competition was organised. Due to the current scenario of Covid-19, our students maintained proper social distancing measures by taking part in this event from their home.

The online event began with an informative speech about the World Ozone Day by Ms. Mansa Verma. Speaking about this Special day she said The International Day for the Preservation of the Ozone Layer also known as The World Ozone Day is celebrated every year across the globe on 16th of September. The purpose of the Montreal Protocol is to protect the Ozone layer by reducing the production of substances that are supposed to be responsible for Ozone layer depletion. The **Ozone layer** also known as Ozone shield, a delicate layer of gas, in the Earth's stratosphere absorbs most of the Sun's ultraviolet rays. These rays can cause a numerous skin disease. In the last few years, the ozone layer has depleted extensively. Thereafter the Students of the DED.SE.VI one by one express their view about World Ozone Day and all the students actively participated in the event. Overall programme was very informative and the event was a great success in this hour of COVID-19 pandemic with the help of Microsoft App.

**SLOGAN BY ANSHIKA**

**POSTER BY MAHISHA MEENA**

**SPEECH BY VERSHA**

**POSTER BY KRISHAN**

**SLOGAN BY SAKSHI**

### Learning Outcome

- Students realized the importance of Ozone layer.
- Students enhanced their knowledge regarding World Ozone Day.
- All the student presenters conveyed a strong message that each and every one is having the responsibility to protect the Ozone layer by reducing the production of substances that are supposed to be responsible for Ozone layer depletion.
