Awareness Campaign on world Braille Day (2021)

Event: World Braille Day

Date: 31/12/2021 to 04/01/2022

Time: 1:00 PM to 2:30 PM

Venue: Microsoft Teams App

Chief Convenor: Ms Sanjana Mittal , Head Student Welfare

Convenor/In-charge: Mr. Sandeep Upadhyay and Mr. Harish Kumar

Purpose of the Event: Through this event, student will have the knowledge about World Braille Day that create awareness of the importance of braille as a means of communication in the full realization of the human rights for blind and visually impaired people.

Objective of the Event:

1. To make people realize the importance of world Braille day .
2. To spread awareness about the importance of Braille language as a means of communication for blind and visually impaired people.

Report of the Event

Students and staff members of VI & DB department participated in this activity with full enthusiasm and showed utmost dedication. The theme of World Braille Day, on this Special day various activities including Slogan writing completion, braille writing, braille reading, speech and Poster making competition was organised. Due to the current scenario of Covid-19, our students maintained proper social distancing measures by taking part in this event from their home.

The online event began with an informative speech about the World Braille Day by Mr. Sandeep Upadhyay and Mr. Harish Kumar. Speaking about this Special day they said world Braille day is observed every year on 4th January to raise awareness about the importance of Braille language as a means of communication for blind and visually impaired people. The day aims to recognize the right of access to braille by blind people and raise awareness of the importance of braille as a means of communication in the full realization of the human rights for blind and partially sighted people. Braille is a tactile language used by blind and partially sighted people. Combinations of raised dots represent each letter and number, and even musical, mathematical and scientific symbols, so that books and periodicals can be read through touch. The system was invented by Frenchman Louis Braille nearly 200 years ago.

In a post on Twitter, the President of the UN General Assembly, Abdulla Shahid, commended Braille as a tool for freedom of expression, access to information and social inclusion.

Thereafter the Students of the D.Ed.SE.VI and D.Ed.SE.DB one by one express their view about World Braille Day and all the students actively participated in the event. Overall programme was very informative and the event was a great success in this hour of COVID-19 pandemic with the help of Zoom App.
