- To make people and industries aware about the importance of pollution control acts

Report

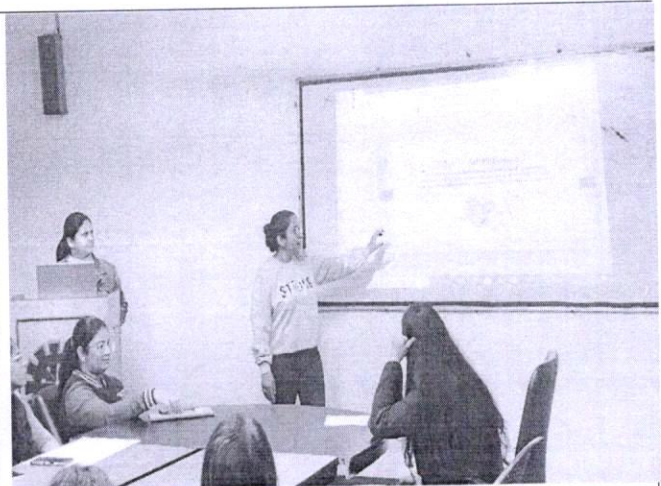

An awareness program on "National Pollution Prevention Day" began with welcome address presented by Ms. Gangotri, Eco Club Incharge in which she expressed her views that this day honors victims of the infamous Bhopal Gas Tragedy. It was 2nd and 3rd December 1984, when this tragedy happened in Bhopal. The Bhopal Gas Tragedy was an example of the harmful effect of pollution. The day raises concern regarding the growing pollution and also highlights the issue of pollution that concerns the health of not only humans but also the environment as well. Industrial growth and human activities are inevitable; therefore, there is a need to draw new policies so that no more Bhopal gas tragedy occurs in the future. There after all the students of B.ED.SE ID/HI/VI/LD and ASD depicted the ways to control different types of pollution through PPTs presentation.
