Report: Description in (min 250 to max 800 words)*

The Intra-Institute Carrom Competition was organized to foster a spirit of camaraderie and healthy competition among students. This event aimed to provide a platform for students to showcase their skills in the traditional game of carrom, while promoting strategic thinking, teamwork, and cultural appreciation. Registration was conducted both online through the institute's sports portal and offline at the sports office. The competition began with knockout rounds to streamline the number of participants. Best players and teams advanced through these rounds, culminating in the final matches. Standard carrom rules were followed, with a time limit set for each match to ensure smooth progression. Each carrom piece was worth 1 point, the queen 3 points, with the winner being the first to reach 25 points or the highest scorer within the time limit. Standard fouls such as improper strikes and touching the pieces were penalized according to carrom rules. Participants were required to maintain sportsmanlike behavior. Prizes were awarded to winners and runners-up in each category. The Intra-Institute Carrom Competition was a resounding success, achieving its objectives of fostering camaraderie, enhancing strategic and cognitive skills, and promoting cultural appreciation. Feedback was collected from participants to understand their experience and identify areas for improvement. A debriefing session was held with the organizing team to discuss the event's successes and areas for enhancement. The positive feedback and enthusiastic participation underscored the event's impact on the student community. Future iterations will build on this success, incorporating feedback to create an even more enriching experience for all participants.
