Raising awareness about Education & Skill Devp.

Posters representing Educational Opportunities

Engagement of staff & Students in the Awareness Programme.

Empowered individuals by providing them with the knowledge, skills, and confidence to pursue their goals and aspirations

**Report: Description in
(min 250 to max 800 words)***

This initiative was specifically designed to address the educational and employment challenges faced by rural communities. Club In-charge Ms. Anoushka emphasized the transformative role of education and vocational skills in uplifting rural economies and highlighted, "Education, combined with the right skills can open doors to numerous opportunities, helping our youth secure better jobs and build sustainable futures." Other Faculty members also discussed how education can empower village communities, improve living standards, and reduce unemployment. Special focus was placed on promoting primary and secondary education for children and young adults. The programme stressed the importance of skill-based training, particularly in agriculture, handicrafts, and small-scale industries, which are vital sectors for rural economies and shared information on how vocational training can help individuals become self-reliant and create income-generating opportunities. Information on various government schemes related to education, skill development, and employment generation was provided.

The Programme was a resounding success, providing participants with valuable knowledge, resources, and inspiration to pursue their educational and career aspirations. The programme served as a catalyst for positive change within the community and highlighted the importance of investing in education and skill development for individual and collective growth. Participants gain a deeper understanding of the importance of education and skill development in personal and professional growth. Overall, it was a meaningful activity that encompasses social, environmental, and personal values, making a positive impact on both the givers and receivers. Additionally, efforts should be made to provide ongoing support and guidance to participants as they continue their education and skill development journey.
