Report: Description in (min 250 to max 800 words)*

An awareness program on Green Holi was organized to educate the community about the environmental impact of traditional Holi celebrations and promote eco-friendly practices. The program highlighted the harmful effects of synthetic colors, excessive water usage, and pollution, while encouraging sustainable alternatives like organic colors and water conservation techniques. It also aimed to empower participants to advocate for eco-friendly Holi celebrations and foster a sense of environmental responsibility.

The event commenced with an introductory speech by Mr. Prabhat Ranjan, emphasizing the importance of sustainable Holi celebrations and their role in protecting nature.

there after B.Ed. LD students Pawan conducted an engaging workshop introducing the concept of Green Holi and the importance of choosing natural, non-toxic, and biodegradable colors over synthetic ones. Participants learned about safe and sustainable ways to celebrate Holi while protecting nature.

A B.Ed. LD students give A live demonstration was held where students and faculty members showcased how to make organic colors using flowers, turmeric, and other natural ingredients. This session encouraged participants to adopt safe, toxin-free alternatives for future celebrations.

A presentation was given on the importance of water conservation during Holi. It highlighted practical strategies for minimizing water wastage and promoting dry Holi celebrations without compromising the festive spirit.

The event concluded with all participants taking a pledge to celebrate Holi responsibly, use eco-friendly products, and spread awareness in their communities.

Mr. Prabhat Rnjan, the event coordinator, expressed his gratitude and encouraged everyone to continue advocating for a greener and healthier environment through sustainable festive celebrations.

Thank you once again, and let's keep working together for a cleaner and greener future!
