World Health Day is celebrated every year on **April 7th** to mark the founding of the **World Health Organization (WHO)** in 1948. It is a global health awareness day aimed at drawing attention to important health issues that affect people around the world.

Each year, WHO chooses a specific **theme** to focus on a major health concern. The goal is to raise awareness, promote healthy lifestyles, and encourage actions that improve the well-being of individuals and communities.

Report: Description in (min 250 to max 800 words)*
