**Report description: -**

The Red Ribbon Club of Ashtavakra Institute of Rehabilitation Sciences & Research organized an Exposure Visit to ICTC, MITWA VAN on 16th January 2026 with the objective of providing practical exposure and first-hand learning to students regarding HIV/AIDS awareness, counseling, and testing services.

The program commenced with an introductory session by Ms. Sanjana Mittal, Deputy Director, who briefed the students about the purpose of ICTC services and the importance of early diagnosis and counseling in controlling the spread of HIV/AIDS. She emphasized the role of youth and future educators in spreading accurate information and combating myths related to HIV.

The students were then guided by Mr. Lalit Kathuria, ICTC Counselor, who explained the functioning of the MITWA VAN, the process of pre-test counseling, HIV testing procedures, post-test counseling, and referral services. Special emphasis was laid on

confidentiality, consent, and stigma-free counseling.

During the session, students actively interacted with the counselor and gained insights on:

- Modes of HIV transmission
- Preventive measures and safe practices
- Importance of regular HIV testing
- Myths and misconceptions related to HIV/AIDS
- Government initiatives under Delhi State AIDS Control Society (DSACS)

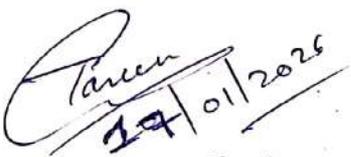

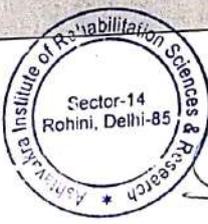

Students and faculty members also undertook a community sensitization visit to Razapur Village, Sector-09, Rohini, Delhi as part of the exposure activity. During this visit, the students interacted with community members and created awareness about HIV/AIDS transmission, prevention, the importance of testing, and elimination of myths and stigma associated with the disease.

The students sensitized the community regarding safe practices, early

diagnosis through ICTC services, and the availability of free counseling and testing facilities through MITWAVAN. The visit provided students with an opportunity to apply their learning in a real-life community setting and helped strengthen their communication, counseling, and social outreach skills. The community members responded positively and appreciated the initiative taken by the institute and the Red Ribbon Club.

The exposure visit helped students connect theoretical knowledge with real-life healthcare practices. The session was informative, interactive, and sensitizing, especially for students pursuing Special Education, who will play a vital role in inclusive health awareness.

The program concluded with a vote of thanks by Ms. Sanjana Mittal, Dy. Director, appreciating the efforts of DSACS officials, ICTC staff, and participating students for making the session meaningful and impactful.

Recourse Person	1. Mr. Lalit Kathuria, ICTC Counselor 2. Mr. Pramod Bhardwaj, ICTC Lab technician
Attendance Sheet*	Attached at the end of Report
Feedback	The exposure visit was highly informative and enriching. Students appreciated the practical exposure to ICTC services and gained clarity on counseling and testing procedures. The session enhanced their understanding of HIV/AIDS awareness and encouraged a stigma-free and empathetic approach towards people living with HIV/AIDS.
