Under the aegis of the Unnat Bharat Abhiyan (UBA), the Ashtavakra Institute of Rehabilitation Sciences and Research organized a Village Survey to assess the socio-economic conditions of the adopted village, Razapur, on 16th January 2026. The activity was conducted by the members of the UBA Club with the active participation of students and faculty coordinators, aiming to strengthen institute–community engagement and promote inclusive rural development.

The primary objective of the survey was to understand the existing social and economic conditions of the village, including education, health, livelihood, sanitation, housing, and access to basic amenities and government welfare schemes. Students interacted directly with village residents through structured questionnaires, observations, and informal discussions, ensuring ethical data collection and respectful communication.

During the survey, information was gathered on family income patterns, employment opportunities, educational status of children, availability of healthcare services, sanitation facilities, drinking water supply, and awareness about government schemes. The students also observed the social

structure, community participation, and local resources of the village. Special attention was given to identifying the needs of vulnerable groups such as women, children, elderly persons, and persons with disabilities.

The activity provided students with first-hand exposure to rural realities and helped them bridge the gap between theoretical knowledge and practical application. The findings of the survey will serve as a baseline for planning future need-based interventions, awareness programmes, and development initiatives under the UBA framework.

Overall, the village survey proved to be a meaningful learning experience that fostered social responsibility, empathy, teamwork, and civic engagement among students while contributing towards the sustainable development of the adopted village.
